

THE BENEFITS OF JOINING THE NORTH AMERICA SCHOLASTIC ESPORTS FEDERATION

WE PROVIDE THESE RESOURCES AT **NO COST**

NASEF incorporates the knowledge and expertise of **national leaders on gaming and education**. Our ongoing research examines learning in an esports environment, producing data to further enhance our coaching, curriculum, and club programs.

RESEARCH

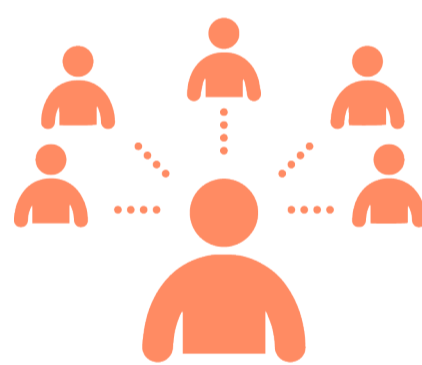

CURRICULUM

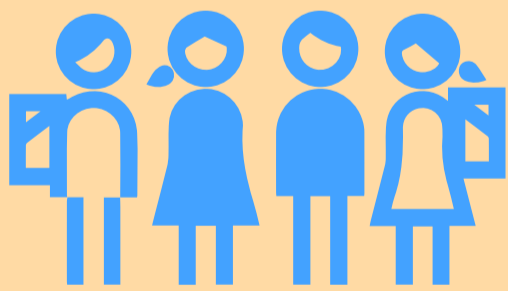

In partnership with the Orange County Department of Education, we've created curriculum that fosters social-emotional learning, and **integrates STEM and esports in high school classrooms** that meet California English Language Arts standards.

NASEF equips school club advisors with the proper tools to become general managers. With the help of Connected Camps, NASEF also **provides coaches to each school team, ensuring that each coach is properly vetted and trained** to mentor students throughout the competitive season.

COACHING & MENTORSHIP

CLUBS

Don't have an esports club yet? Need help determining club roles, or creating a club constitution? Registering with NASEF includes **free resources like toolkits** to help build your club's foundation and more! Clubs also have access to **workshops for streaming, shoutcasting, and other key components** of the esports ecosystem.

With support from UCI Esports, a top collegiate esports organization, we provide an opportunity for students to engage in a competitive environment that emphasizes **teamwork, good communication, and sportsmanship**.
