

THE BENEFITS OF JOINING THE NORTH AMERICA SCHOLASTIC ESPORTS FEDERATION

WE PROVIDE THESE RESOURCES AT **NO COST**

RESEARCH

NASEF incorporates the knowledge and expertise of **national leaders on gaming and education**. Our ongoing research examines learning in an esports environment, producing data to further enhance our coaching, curriculum, and club programs.

CURRICULUM

In partnership with the Orange County Department of Education, we've created curriculum that fosters social-emotional learning and **integrates STEM and esports in high school & middle school educational spaces**. These Programs are certified to meet California English Language Arts & Career and Technical Education standards. We also provide healthy gaming & tailored esports education plans from our professional learning community of NASEF Fellows.

NASEF equips school club advisors with the proper tools to become general managers. NASEF also **provides coaches to school teams, ensuring that each coach is properly vetted and trained** to mentor students throughout the competitive season. The NASEF Esports Ambassador program brings students mentorship assistance from current college students.

COACHING & MENTORSHIP

CLUBS

Don't have an esports club yet? Need help determining club roles or creating a club constitution? Registering with NASEF includes **free resources like toolkits** to help build your club's foundation and more! Clubs also have **access to workshops for streaming, shoutcasting, and other key components** of the esports ecosystem.

In collaboration with the High School Esports League, we provide an opportunity for students to engage in a competitive esports environment that emphasizes **teamwork, good communication, and sportsmanship**. Our Minecraft challenges also provide further opportunities for **STEM education**, and our Beyond the Game challenges enable students to demonstrate skills in a variety of avenues **that lead to esports or other careers**.
