

## Farmcraft 2022 PhotoVoice Activity Sheet

### WHAT IS PhotoVoice?

PhotoVoice is a participatory research method in which participants take pictures to illustrate their situations. They photograph things that are important to them and record changes. **In this activity, you will be asked to respond to a series of prompts (found on pages two and three) by taking screenshots during your Farmcraft 2022 gameplay.** Players who upload submissions for more than 50% of the prompts will receive exclusive access to skins designed by the Farmcraft Team. More information is provided on page two.

### INSTRUCTIONS

**Submissions should be created using the Book & Quill tool.**

In Minecraft: Education Edition, the Book & Quill tool is an excellent way to document stories and creations. The tool allows players to add pictures taken with the Camera into a portfolio book and edit the book text. You can find the Book & Quill in your Items tab, or use the slash command: `/give @s writable_book`

When you are finished editing your book, click Sign to personalize the cover and sign to lock your book. Even if you are the author, you cannot change the book text at this point. The book will now appear as a purple book in your inventory. When you click on the book in your inventory, it will open and you can export it. The default name will be (Book Title) (Author Name) and save in your documents folder.

When you export the book, it will save as a ZIP file (if you have multiple pages, the file will automatically number them in order). Picture pages will save as JPEG files, text on pages will save as TXT files.

**All PhotoVoice submissions should be uploaded here:** <https://bit.ly/3JDKoMK>

You have until the last day of gameplay to upload your PhotoVoice submissions. During the Farmcraft season, you can upload your submissions at any time. Each prompt (see pages two and three for the full list) should be submitted separately.

## PROMPTS

Below are nine (9) PhotoVoice prompts for you to respond to throughout the Farmcraft 2022 season. Some prompts allow you to upload multiple submissions, so read the instructions for each prompt carefully.

**Remember that players who upload submissions for more than 50% of the prompts will receive exclusive access to skins designed by the Farmcraft Team.** You must upload submissions for at least five (5) different prompts in order to qualify. In order to receive access to the skins, you will be required to provide your email address when uploading your submissions.

Prompt	Instructions
<b>What did you enjoy most about participating in Farmcraft 2022?</b>	Show us what you most enjoyed about Farmcraft 2022. In your submission, tell us why this was your favorite part of Farmcraft 2022.
<b>What did you learn about gaming from playing Farmcraft?</b>	Show us a time when you learned something about gaming through playing Farmcraft. In your submission, tell us what you learned. You may upload as many submissions as you want.
<b>What did you learn about farming from playing Farmcraft?</b>	Show us a time when you learned something about farming through playing Farmcraft. In your submission, tell us what you learned. You may upload as many submissions as you want.
<b>How are climate change and agriculture linked?</b>	Show us a connection between climate change and agriculture based on what you learned while playing Farmcraft. In your submission, tell us what the connection is and how it can be mitigated. You may upload as many submissions as you want.
<b>Why do you think teamwork is important?</b>	Show us a time where you had to work with a team to accomplish a task within Farmcraft. In your submission, tell us what the task was and why you think teamwork was important for accomplishing the task.

## Farmcraft 2022 PhotoVoice Activity Sheet

Prompt	Instructions
<b>How did you go about problem solving using Farmcraft?</b>	Show us a time when you solved a problem while playing Farmcraft. In your submissions, tell us what the problem was and how you solved it.
<b>What does a scientist look like?</b>	Within Farmcraft, show us what you think a scientist looks like. In your submission, tell us if playing Farmcraft has changed your understanding of what a scientist is.
<b>Are you interested in a career in science, technology, engineering or mathematics (STEM)?</b>	Within Farmcraft, show us what interests you about a STEM career. In your submission, tell us why this interests you.
<b>What have you learned about other cultures by playing Farmcraft?</b>	Show us how you interact with players from other countries. In each submission, be sure to tell us where they are from and what you learned about their country. You may upload as many submissions as you want.
